His service record indicates extensive combat experience in various conflict zones.

Skills and Expertise:

5. **Leadership:** BLACKOUT has experience leading small teams in high-pressure situations, providing clear direction and maintaining cohesion under extreme duress.

Affiliation with SCP Foundation: Following his previous experiences, BLACKOUT was recruited by the SCP Foundation for his exceptional skills and unwavering dedication to the mission. As a Special Containment Procedures Operative, his primary role involves containing, researching, and securing anomalous objects, entities, and phenomena to prevent them from posing a threat to humanity.

Psychological Profile: BLACKOUT's psychological profile suggests a disciplined and resilient individual, molded by the rigorous training and demanding operational environment. He exhibits traits commonly associated with elite military personnel, including adaptability, resourcefulness, and a strong sense of duty. However, his exposure to the anomalous phenomena encountered in his work with the SCP Foundation may have introduced additional psychological stressors, necessitating ongoing monitoring and support.

Threat Assessment: While BLACKOUT's loyalty to the SCP Foundation is unquestionable, his background in special operations and combat makes him a potentially lethal adversary if compromised. His extensive training and experience render him capable of neutralizing threats with efficiency and precision. However, his adherence to SCP protocols and directives mitigates the risk of him becoming a rogue element.

Current Status: BLACKOUT is actively engaged in SCP Foundation operations, deploying his skills and expertise to contain and neutralize anomalous threats worldwide. His contributions play a vital role in safeguarding global security and maintaining the fragile balance between normalcy and the anomalous.
