**[SEC=LEVEL 2] MOBILE TASK FORCE OPERATIVES WITH LEVEL 4 SECURITY CLEARANCE  
MAY REQUEST UNREDACTED INFORMATION DIRECT FROM O4 COUNCIL.**

---

### Situation

Last week, Mobile Task Force Epsilon-6 "Village Idiots" found something that's got O4 spooked. Spooked enough that this week, we have a *personal* request from the newly appointed Director of the Red Drake Incident Group (RDIG). This is big - it's not every day the O4 Council appoints an incident response group, and never this quick on the turnaround.

The item Epsilon-6 found is a letter from someone calling themselves "Red Drake". In the letter, Red Drake appeals for help spreading some kind of material into the regional water supplies. Red Drake promises that in doing so, the cultists will be directly contributing to the coming "Apotheosis". In the letter, the material is referred to as "Still Water".

RDIG want us on the scene to enact a series of lightning raids on sites identified as likely to be housing this "Still Water", whatever it turns out to be. **Mobile Task Force Tau-44 "Phalanx"** will deploy in full assault loadout, with full anomaly detection equipment and CBRNA gear on standby if necessary. We will then carry out our raids, kill anyone in our way, retrieve the objective, and return to a designated Foundation black site with it.

O4 have pulled some serious strings on behalf of RDIG - so we're not going to have to worry about local law enforcement on the night. Epsilon-6 is on standby to corral any errant civilians and try to keep them out of our hair. Our job is simple: get in, retrieve Still Water, and get home. Be ready, though; all of the big wigs are treating this like it might just end up being not so simple at all.

## Groups of Interest

Red Drake

The Sarkic Cults

---

## Execution

Hoplite and Centurion are tasked with conducting rapid raids on two locations identified as possible storage locations for "Still Water". Using blackhawk helicopters, two separate teams will land close to their targets and descend upon the locations, kill all cult members and secure anything that may possibly be "Still Water".
